

seasats Lightfish

launch in minutes || perform for months

Seasats makes autonomous surface vehicles for critical missions. With set-and-forget autonomy, simple controls and maintenance, and a modular payload system, the Lightfish turns big-budget missions into routine ops.

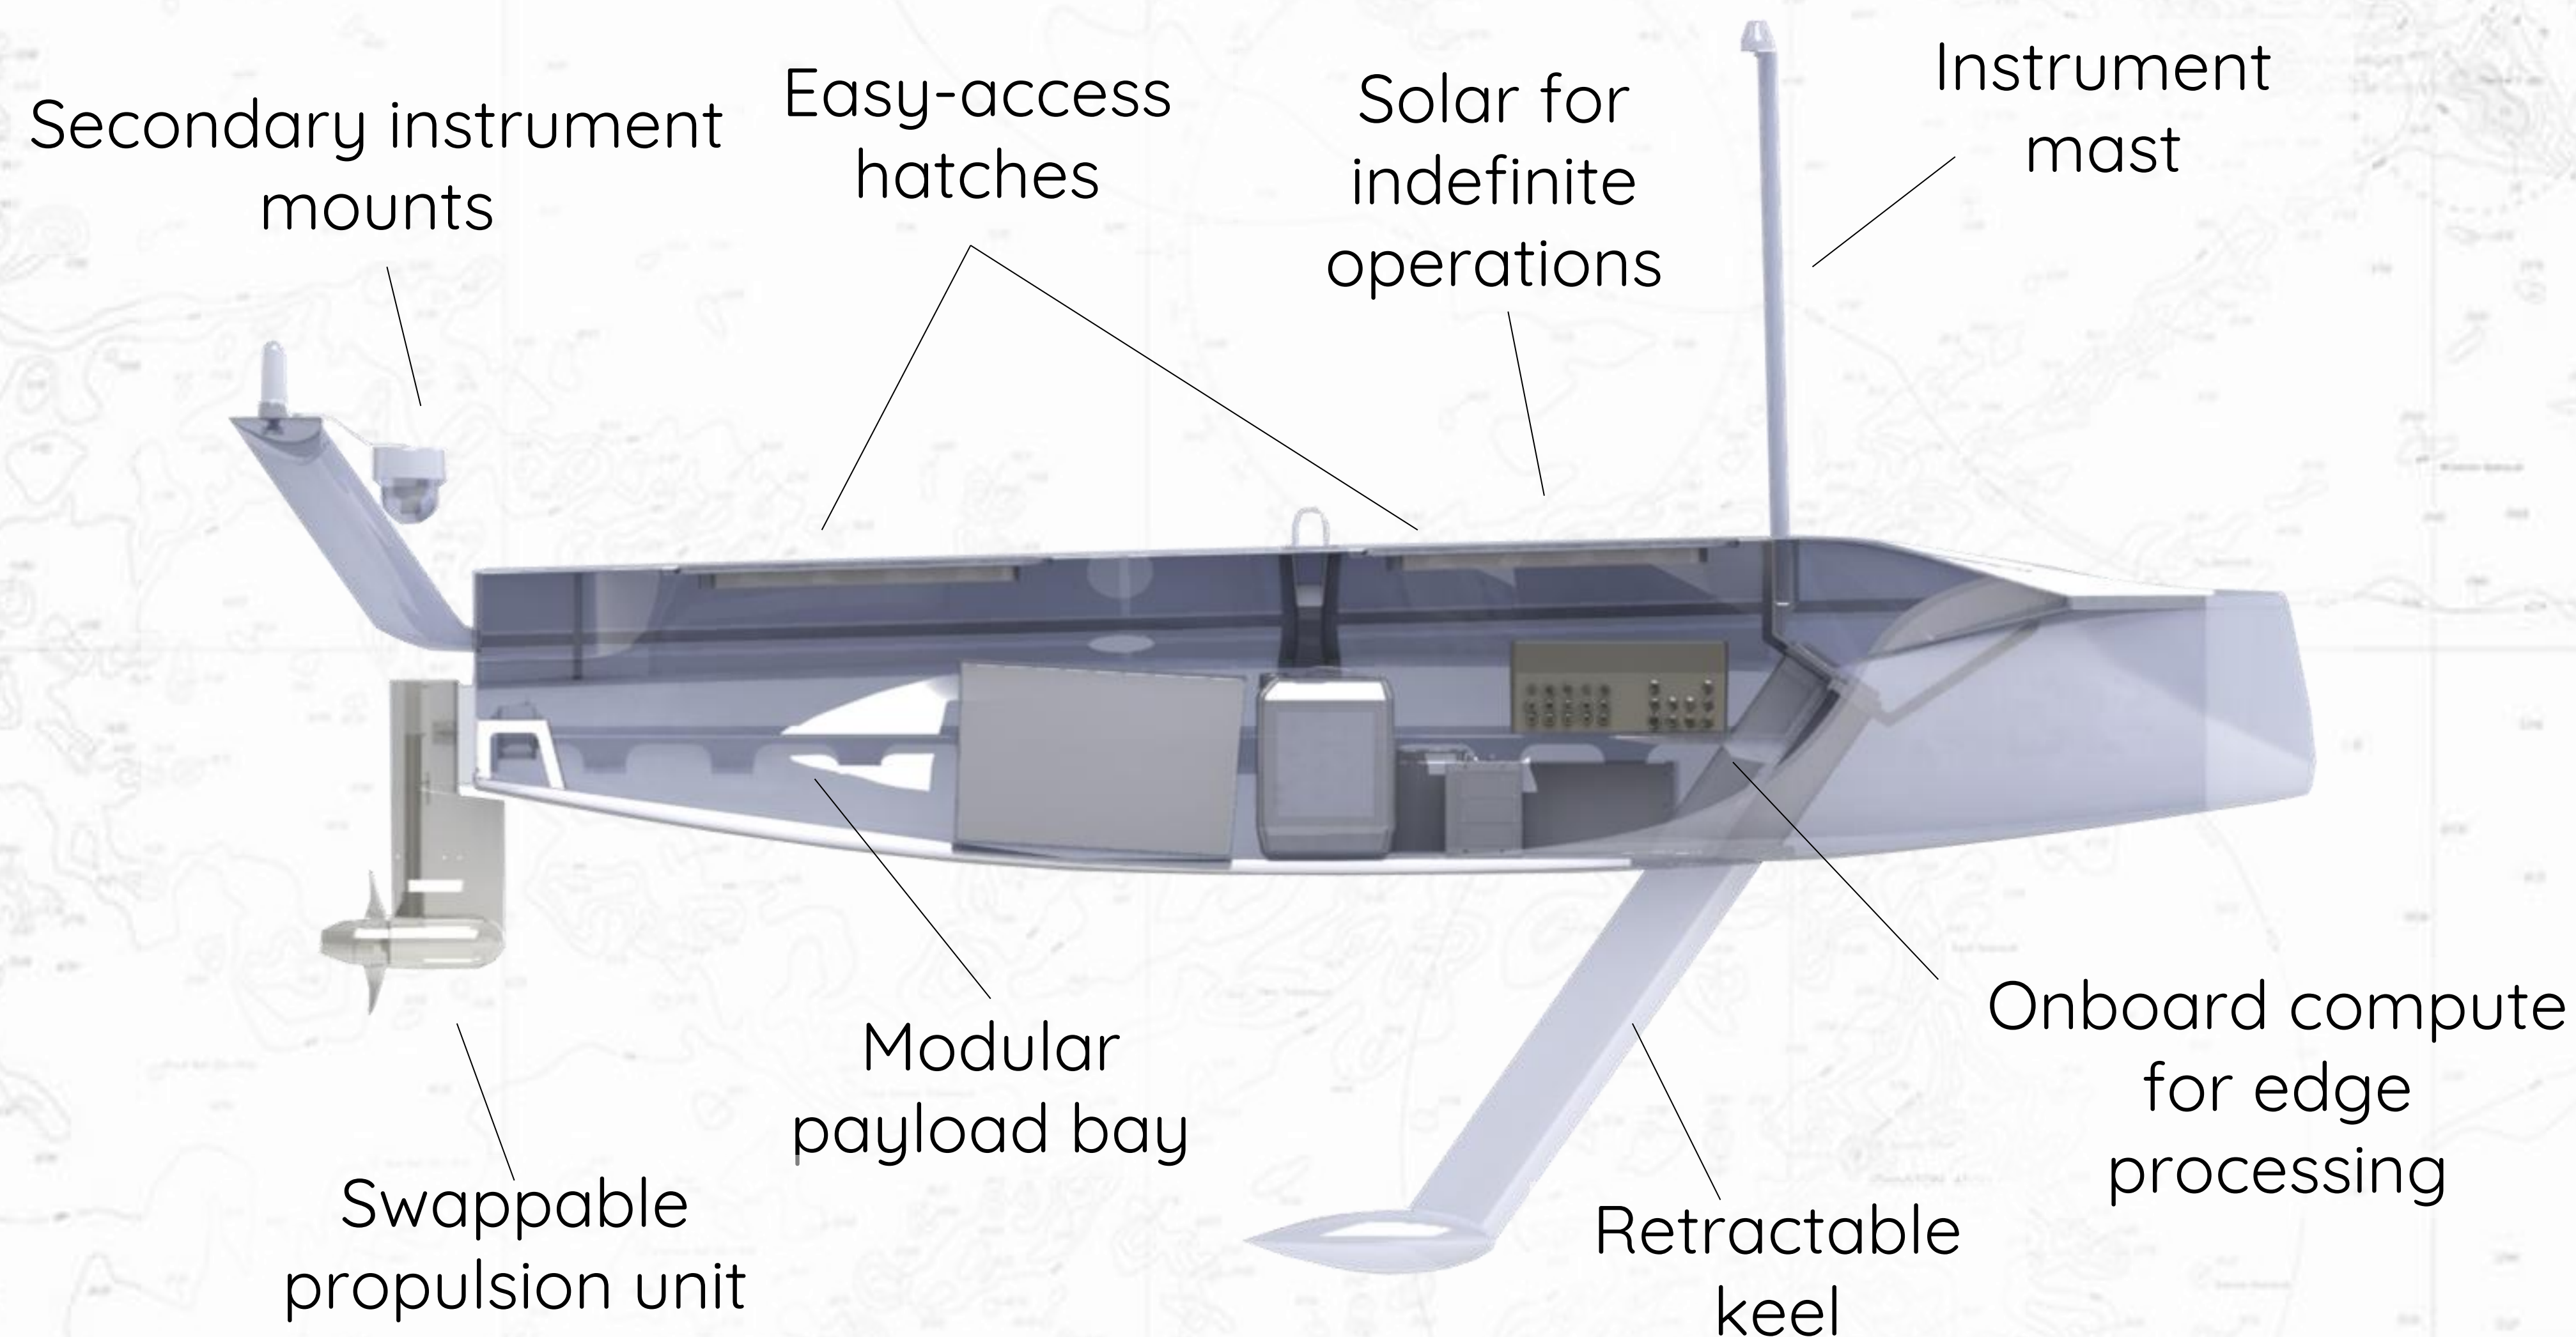

Specifications:

Length / Beam 3.0 m / 1.0 m
Weight 270-354 lbs
Top Speed 4.5 kts
Endurance 6 months
Payload Capacity..... 80 L / 44 lbs
Payload Voltage..... 5-28 V
Payload Peak Power..... 200 W
Max Stored Range* 575+ NM

** Stored range assumes no solar charging and is a “worst case” metric*

seasats Lightfish

Key Features:

- 2-person portable
- Predictable propulsion
- 24/7 operability
- No human risk

Applications:

- Bathymetric Surveying
- Water Sampling
- Perimeter Security
- Wildlife Monitoring
- Maritime Domain Awareness (MDA)
- Intelligence, Surveillance, and Reconnaissance (ISR)
- UUV/UAV Teaming
- + more
